

--- Clausius Tower ---

Institute of Mechatronics, Nanotechnology
and Vacuum Technique
Koszalin University of Technology

organizes

Symposium on Vacuum based Science and Technology

in conjunction with

8th Annual DVG Meeting and 2-nd International Conference Plasma based Thin Film Technologies

under the auspices of

Polish Vacuum Society PTP

German Vacuum Society DVG

Swedish Vacuum Society SVS

22-24 September 2009, Koszalin - Kołobrzeg

Topics

Special solemn session will be dedicated to Rudolf J.E. Clausius

- Plasma Physics and Technique
- Applied Surface Science and Surface Technology
- Functional Thin Films and Coatings
- Characterization of Surface and Thin Films
- Bio-compatible Surfaces and Coatings
- Carbon based Nanocomposite Coatings
- Nanostructures and Nanotechnology
- Vacuum Science, Technique and Trends
